## **Frequently Asked Questions**

### **What's the difference between a Main Photographer and a Second Photographer?**

At many weddings you might see more than one "official" photographer taking pictures. The photographer responsible for making sure all the "mandatory" photographs are taken, like posed, group, table-to-table images is known as the "Main" Photographer. The photographer moving around, shooting from different angles, and generally taking a more artistic or photojournalistic approach is the "Second" Photographer. He or she normally delivers a more abstract album that focuses on the aesthetic value of the photograph.

At Hurricadia we are able to deliver beautiful imagery regardless of our role. So whichever package you choose you can be guaranteed an artistic, photojournalistic interpretation of your wedding. However, you may want more than one photographer at your wedding, or have an experienced friend who is willing to be the main photographer. In these cases we are more than happy to shoot from the shadows, giving you an alternative interpretation through our lens.

### **(Actual Day) Do you charge by the hour for weddings?**

No – we understand that when planning for a wedding there are many factors out of your control. Some weddings start early, some end early. We recognise that things can and do run late for a variety of reasons and feel a per-hour charge penalises couples.

### **What camera equipment do you use?**

Nikon D700, usually with a 24-70 f/2.8 lens. We only use Nikon's very best professional lenses.

### **What format do you shoot on?**

We now shoot everything on RAW – specially edited images are delivered as TIFFs (about 11MB per image) and all other images are delivered as maximum resolution JPEGs (about 7MB each)

### **Do you edit all your photographs?**

Yes! Everything is rotated, colour corrected and noise reduced. Specially edited images are given extra treatment before they are placed in the album.

### **Do we only get 25 or 40 photos? What about the rest?**

Everything we photograph is delivered on DVD-Roms. An average wedding will see about 800 to 1000 images delivered. Our specially edited photographs are the absolute best of the weddings, lovingly processed for your memories.

### **Do you do collages or montages in coffee table albums?**

We believe that the best image is one that can stand by itself. We can do collages on request, but prefer to let the beauty of each photograph we take tell a story without distractions.

# Hurricadia Art – Fully Focussed on You

Because we actually enjoy being at weddings, Hurricadia offers Hurricadia Art as a special rate for couples looking for a 2nd photographer. The role of second photographer (as opposed to first) is usually to capture only the artistic and sacred moments in a wedding, leaving the more "official" work for the first photographer. Couples who pick this package will be ensured of the highest artistic value in their photographs.

This package is especially suited for couples who have friends who might want to photograph their wedding as well.

## **One full day of service as a Second Photographer**

We leave the group and posed photographs to your main photographer, and focus instead of delivering the best story we can tell about your wedding.

## **Album - 40 Specially Selected & Edited Images**

Printed to 8" x 10" (8R) on Fujifilm's crystal archive digital pearl paper and hand-pasted in our 12" x 12" leather-bound album with your names etched in stainless steel.

# Pre-Wedding - Hurricadia Environ – Real Lives, Real Stories

Our pre-wedding photography is about creating real images of couples' relationships. We encourage couples to choose locations which mean something to them - perhaps the place of their first date, or where one proposed to another. We love creating albums with real stories couples can tell.

## **Half day (4 hours) / one day (7 hours) of Pre-Wedding Photography**

With as many locations as we can fit in.

## **Album - 40 Specially Selected & Edited Images**

Printed to 8" x 10" (8R) on Fujifilm's crystal archive digital pearl paper and hand-pasted in our 12" x 12" leather-bound album with your names etched in stainless steel.
